

# Empowering Schools Through Volunteering

## Supporting Students with Volunteering (Secondary Schools)

- **Volunteering Talks & Workshops** - delivering engaging sessions to introduce the benefits of volunteering and highlight local volunteer roles.
- **Assistance in Finding Volunteering Opportunities** - we work closely with local charities and community groups to connect students with roles that match their interests.
- **Skills Development & CV Support** - we offer guidance on how volunteering experiences can build practical skills, and serve as a valuable addition to future career prospects.

## Advertising Volunteer Opportunities within Schools (Primary & Secondary Schools)

- **Showcase Community Volunteering Roles** - we help schools advertise opportunities for adults to get involved in school activities – for example, volunteering to read to children or mentoring.
- **Enhance School-Community Links** - By encouraging adult participation, we foster stronger bonds between schools and the wider community, creating a more enriching and inclusive environment for all.
