

“We believe that with better information, funders can be more informed, effective and strategic decision-makers. [360Giving](#) supports funders to publish open data about their grants, makes the data available in a range of free online tools and supports people to use this data to improve charitable giving through a more informed understanding of the grant making picture.

Bury Voluntary Community Faith Alliance is committed to transparency, and we work with 360Giving to publish information about our grants using the 360Giving Data Standard. Our awarded grants since 2026 are available as a Excel Workbook [here](#). This work is licensed under the Creative Commons Attribution 4.0 International License. You can [view the licence terms on the Creative Commons site](#). This means the data is freely accessible to anyone to be used and shared as they wish. The data must be attributed to Bury Voluntary Community Faith Alliance.”
